Africachild VILLAGE

A safe place for
YOUNG MOTHERS
and **THEIR CHILDREN**

AFRICACHILD VILLAGE

A village for young mothers
(between the ages of 13 and 18)

They become pregnant involuntarily, mostly through rape, abandonment and left alone to handle the problems of pregnancy, illness, poverty, hunger and also life without social attachment.

We take them in and help them at Africachild Village. In the region of Kwale in the south-east of Kenya, we have built a small village for them on a plot of 8 hectares.

In the village they will learn to take care of themselves and receive support from us in the areas:

- Babycare • School • Education •
- Medical care •
- Care during pregnancy •
- Socialization for an independent working and professional life •

Africachild
VILLAGE

OUR PROJECTS

Additional support is also given to the young mothers to take care of themselves and their children:

AFRICACHILD TRAINING:

In the village the young mothers are trained in the professions of hairdresser, beautician, dressmaker and housekeeper. After the completion of the training they take part in the state approved final examination.

AFRICACHILD SCHOOL:

In addition to state schooling, the young mothers receive additional training in the subjects of socialization, English, German, computers and personality development.

AFRICACHILD FARMING:

We run our own farm and a chicken coop. We also bake local bread. The products are sold at the local market and also directly to hotels. In this way the young women learn how to grow and market food.

AFRICACHILD FIELDWORK:

We go to the outer regions to the poorest hot spots, advise and give assistance to families and village elders.

- We operate a well.
- We enable children from poor families to attend school.

Africachild
EDUCATION

Africachild
SCHOOL

INTERNSHIP IN AFRICA

We offer interns the opportunity to work in our projects which includes taking care, educating and socializing the young mothers and their babies.

Female students in the field of "social work" can complete a semester abroad (5th semester/ practicum) in the village in consultation with the respective university.
